Strategy

We gather information about your company, learn its past, present and create strategy for future. Our experience when connected with progressive thinking can lead to astonishing results.

[A question ?](#)

Branding

We love to help companies grow and evolve and tell their story. We offer branding services to allow companies to have consistent identity through professional design. We are passionate to make the design fresh and authentic.

[Branding](#)

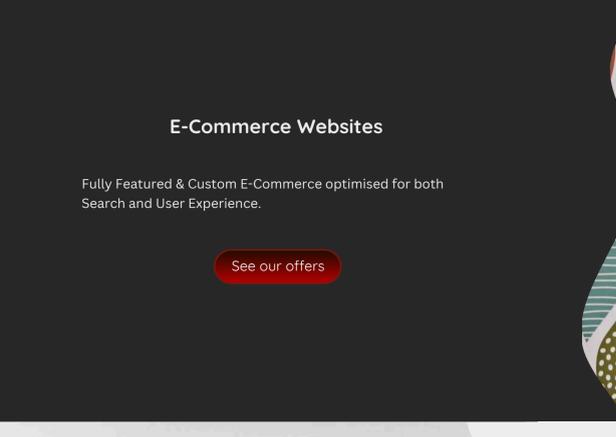

Websites

How your website is built is as important as how it looks.

Our stunning web designs are built on solid foundations that keep your company safe from cyber attacks and that protects your client's personal information.

We dedicate time to the aesthetic design, user experience and to the software development that ensures your website is cross platform accessible and smart device compliant (for android, iPhone, etc.). This approach to building a website gives you peace of mind that the search engines will find your content with ease and speed !

[Websites](#)

E-Commerce Websites

Fully Featured & Custom E-Commerce optimised for both Search and User Experience.

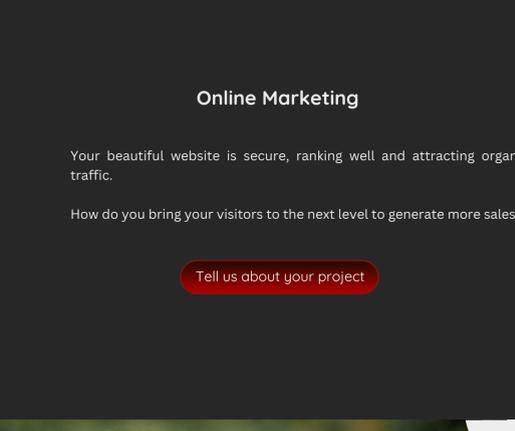

[See our offers](#)

SEO (Search Engine Optimization)

Almost anyone can 'make' a website these days. But only the very best developers are able to deliver a website that looks great, is fully secure and is easy to find on the Internet. Your website needs to be found by both search engines (Google, Yahoo, Bing etc) and your target customers.

[SEO & Online Marketing](#)

Online Marketing

Your beautiful website is secure, ranking well and attracting organic traffic.

How do you bring your visitors to the next level to generate more sales ?

[Tell us about your project](#)

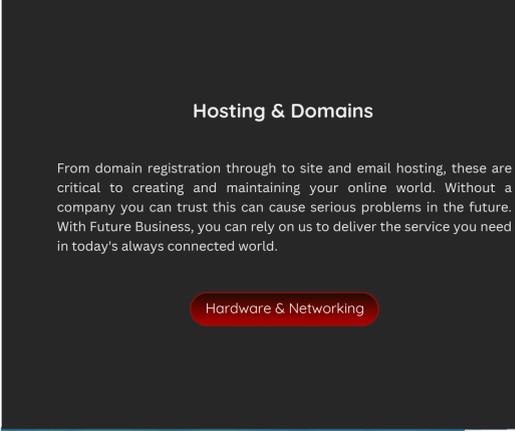

ANALYTICS

Social Media

People share all sorts of information via Facebook, Twitter or other social media sites. Companies find their way to clients through these platforms. With our help you can gain more user feedback and build loyalty to your brand. Publishing information about latest offers and discounts has never been easier with a professionally designed and popularised social media page.

[Building loyalty](#)

Hosting & Domains

From domain registration through to site and email hosting, these are critical to creating and maintaining your online world. Without a company you can trust this can cause serious problems in the future. With Future Business, you can rely on us to deliver the service you need in today's always connected world.

[Hardware & Networking](#)

Cloud Back-up

A safe home for all your data Access, share and protect your files, calendars, contacts, communication & more at home and in your enterprise. Super Fast Backup with unlimited versioning of multiple PC's and military grade security. Even social backup to protect your Facebook account.

[Cloud Backup](#)

IT Security & Support

You have your computer connected to the big bad world, what next? Well, if you have no security in place, you could lose everything. A few simple things in place could save you hundreds, thousands, tens of thousands if not millions of euro.

[IT Security & Support](#)

Networking

We build well organised and fast networks that improve how efficiently companies run.

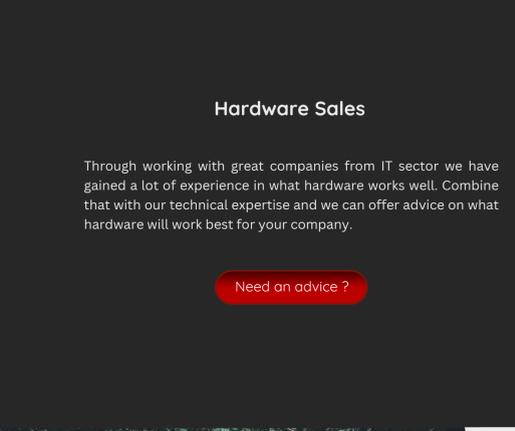

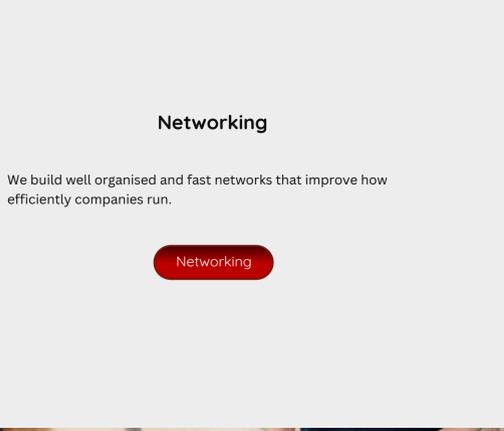

[Networking](#)

Hardware Sales

Through working with great companies from IT sector we have gained a lot of experience in what hardware works well. Combine that with our technical expertise and we can offer advice on what hardware will work best for your company.

[Need an advice ?](#)

App Development

Mobile, online and desktop apps and websites can improve your employees' efficiency, bond your customers with your brand and help you sell a product or service. Many companies offer their branded applications to open another important channel of communication with their clients.

[App Development](#)

DO YOU HAVE A QUESTION, A PROJECT ?

You can

CONTACT US

PAGE “WHAT WE DO”

The different sections will be on 1 “slide” (page).

- 2 possibilities of menu :
 - 1/ a “menu-slide” of each sections with a short description (the slide has an automatic horizontal scrolling) ; we have to click on a section to make appear its entire section below. Visitor can do the horizontal scrolling with left-right arrows as well.
 - 2/ a classic menu or a menu look like Pinterest ; we have to click on a section of the menu to make appear its section below and to be redirect to the linked section.

All the sections are displayed by default. If the visitor click on a specific “menu-section”, then the other sections will disappear and only the specific section will be displayed. A second click on the same “menu-section” will display again all the sections.

Do this to have an “scrolling” effect on images of each sections :

```
.element {  
background-image: url("./img.jpg");  
height: Xpx;  
width: Xpx;  
background-position: bottom;  
background-size: contain;  
background-repeat: no-repeat;  
background-attachment: fixed;  
}
```

Do a crolling effect when all the sections are visible ?

To have a PAGE SCROLL EFFECT :

<https://codyhouse.co/demo/page-scroll-effects/fixed-hijacking.html>

Banner brands in “Branding” section : animation > automatic slow horizontal scroll.

Reduce the size of paragraphs in some sections (for example, in “Web Design”, SEO paragraphs).

Call buttons towards “Portfolio”, “Contact”.

Other possibilities of arrows for the scroll :

Strategy

A well defined strategy can communicate your company's strategy to everyone within your startup.

Branding

Branding is one of the most important aspects of your business. It sets you apart from your competitors and allows you to quickly and effectively communicate your USP.

Web Design

How your website is built is as important as how it looks.

SEO

Being found easily on the internet is a tricky task and not an exact science. We have developed tools that boost your website's ranking on search engines.

Online Marketing

Your beautiful website is secure, ranking well and attracting organic traffic. How do you bring your visitors to the next level to generate more sales ?

Social media

Social media is a very valuable communication medium that allows you to promote services and product. It takes lot of work to do it properly and we can help you with that!

Strategy

The business strategy is the base for all of your actions and marketing. A well defined strategy is essential to reach your goals. With an unclear strategy, the future actions will be random and ineffective. At the end, there will cost both time, money, a non-achievement of the business goals, and in many cases kill your business.

A good business strategy consists of the clear definition of three plan components:

- business objective
- the scope of action
- the competitive advantage

We can help you develop a world-class strategy for your company to ensure you stay on track and achieve your business goals. Our wide experience has allowed us good business results and even in one case our advice led to a 65 million euros profit during a sale.

[A question ?](#)

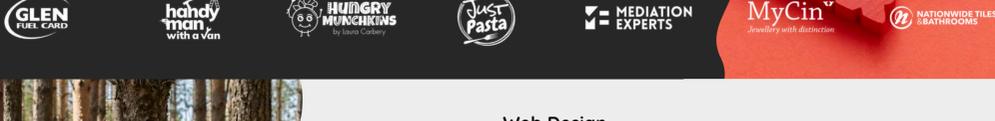

Branding

Branding is one of the most important aspects of your business. It sets you apart from your competitors and allows you to quickly and effectively communicate your values. Let us help you develop a strong and recognized brand.

We have had experience with over 300 clients, we know what works and what you need to get the edge on your competitors.

The key to well done branding is to remember that well designed brand works great no matter if the logo is printed in color or on the Web or even cut out of wood. It should always be recognizable and memorable.

Of course branding is not just about the logo itself - it is a combination of all the company efforts and how they all create an overall image that represents the values you want to advertise. We can also help in rebranding - it's never too late to start building your brand on better fundamentals.

Web Design

How your website is built is as important as how it looks. The aesthetic approach (UX/UI Design) and software development ensure websites attractive, easy to use, intuitive, accessible for your clients, and keep your company and client's personal information safe from cyber attacks.

The website can be cross platform accessible and smart device compliant (for Android, iPhone, etc.), which permit a good indexation with Google and therefore a better visibility on internet. It's a virtuous circle.

We can do all of this for you.

A content quality is a good publicity as well for your company. We aim to make all websites with an enjoyable experience for clients. If your visitors will be interested with the site content and navigation they will spend more time on the site and be more exposed to your brand and services.

[Look our portfolio](#)

Websites are not only about selling a product or service : they are a way of communication, a link with the client. Websites tell a story about the company, websites are the company's footprint. But for this, you must know your target audience and your competitive advantage.

We can help you to define your story and improve your business, reach results.

We work with a set of features which permit us to reach efficiently the goals of our clients :

- the package Google : Analytics, AdWords, ...
- social networking links : LinkedIn, Twitter, Youtube, Pinterest, Facebook, and so on.
- content management systems : WordPress, Drupal, ...
- cloud based email : to never be out of touch, and so more.
- cloud storage : to manage on multiple devices your files.

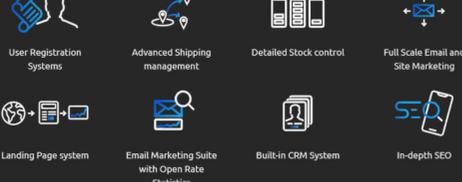

Upon launch o your website, you also receive an eBook guide on how best to manage and promote your site with the Search Engines and Social Networks.

E-Commerce Websites

Future Business offers its customers two packages adapted to each need.

Fully Featured Bespoke E-Commerce Websites

Future Business offers a bespoke Fully Featured & Custom E-Commerce optimized for both Search and User Experience. With Future Business store and management, it comes with Everything you need for your online business. The package includes also one years Free In-depth SEO reports and management.

OpenCart E-Commerce Websites

OpenCart has become one of the Industry Standard for eCommerce stores. The big difference with these as to our own bespoke system is they do not come built in with the tools required to promote your business, but have excellent reporting and management integration. They are ideal if you have an existing online presence but no store. We can also integrate the OpenCart stores with our Promotional sites as well to enhance the search-ability of your products.

[Contact us for a quote](#)

SEO (Search Engine Optimization)

The Internet is a competitive place where many companies are using the same keywords to attract the same audience. Therefore, in order to stand out from the competition, a company must use appropriate and efficient tools. Future Business helps you to improve your place in the jungle of the internet with these three supports :

- Make a **quality content** : this is the most overlooked part of web development, yet it is critical for the long-term success of the website. Content rules the Internet and SEO cannot happen effectively if a website lacks really good content. Content reduces your online marketing costs and bump you up the visibility ladder.

- Build a **good foundation** with your website : having great content is not enough if the website is not well organized. With a good architecture, your website's ranking will be increased, the traffic visiting your website will be higher, and the costly advertising will be significantly reduced. Future Business has developed for you a suite of products to help you to reach your goals.

- Deliver to you keys to **manage easily** most of your website : we want you to have the skills to work with your website every day as you do any other aspect of your business. The ongoing success of your website lies in you giving visitors interesting content and keeping in touch with them. This ensures the website is always working hard for you without the cost of paying and waiting for someone else to do it.

Because our clients know their industries and customers better than anyone, we can go further developing specific tools for your sector : e-vouchers, interactive elements, and so on.

[Look our achieved projects](#)

Online Marketing

Now that you have a secure aesthetic and effective website, you want to launch a new product or service. How do you bring your visitors to the next level ? You do this by rolling out an effective online marketing campaign, utilising e-marketing with email, committing to online banner advertising, engaging with product site reviews in influential blogs etc. (all of which we can help with).

We advise some of Ireland's leading offline advertising and marketing companies in how to roll out effective online campaigns.

[Tell us about your project](#)

Social Media

Social media have a growing impact on how people use the Internet. We no longer only use standalone instant messaging or email. Much of the online traffic is now driven via social and multimedia oriented sharing of information.

People share all sorts of information via Facebook, Twitter, Instagram, LinkedIn or other social media sites. Companies find their way to clients through these platforms. With our help you can gain more user feedback and attachment to your brand. Publishing information about latest offers and discounts has never been easier with a professionally designed and popularized social media page.

We offer consulting as well as one to one tutorials on how to get the most out of your social media advertising campaigns. This is great for companies who already have a social media team but require more training or consulting.

Hosting & Domains

Domain registration, website hosting and secure email - these are critical to creating and maintaining your online business.

Have your site hosted on one of our dedicated servers and we will take care of its security and online visibility 24/7. A complete package to enhance your business and avoid risks of a weak web hosting.

[View our Hosting offer](#)

Our state-of-the-art servers can handle huge of website traffic. As your website attracts more and more visitors, the technology employed by Future Business ensures it will always respond with speed and accuracy to the demands of the visitor or online customer. Match your storage needs, predicted monthly bandwidth or more specialized hardware requirements with our flexible offer of **shared hosting**.

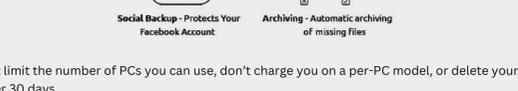

If you are a more demanding user, have a larger company or require custom software or simply full freedom you can choose the **Managed VPS server** offer.

Cloud Back-up

Benefit of an **unlimited versioning** to preserve your data and recover your files erased. We decided to stand out from the competition with a **back-up of every version of your files**, even with the edits inbetween, so you know that your critical data is safe from accidental delete, or over editing.

Once you buy a cloud based back up product from the market you can be guaranteed that it will be the most secure, fastest and most flexible offering in its use. All of our services offer the same **Military Grade Security**, all our on multiple servers around the world, all of them offer backing up of PC's Servers, Smart phones, Macs and even your social media accounts.

We don't limit the number of PCs you can use, don't charge you on a per-PC model, or delete your save data after 30 days.

All our cloud backup packages include:

- A safe home for all your data Access : share and protect your files, calendars, contacts, communication & more at home and in your enterprise.
- ONLYOFFICE offers : a complete online document editors.
- Unlimited accounts and control on all sharing and collaboration.

IT Security & Support

Our wide expertise allows us to be present on several fields :

- From free ware through to professional industrial grade secure systems, we can help lock down your system to make it as secure as possible.
- From the small home office to the SME through to a large corporation, we can help with planning and executing the most robust network possible.
- From the simple cabling through to wireless and laser links, dedicated leased lines, etc.

We can offer 24/7 remote, on-site IT support, with our dedicated staff who can fix most problems remotely on all types of systems.

[Contact us](#)

Networking

Wired and wireless access, local network and world wide web. With the latest solutions in IT & monitoring, enhance the service you offer to your clients.

Future Business can help you enrich your client's experience with you by supplying ultra-fast networking that makes most of your Internet connection for stable, secure and speedy communication.

We also supply advanced communication tools that make communicating both within organisation and outside simply effortless. Experience the speed that makes your team work a pleasure!

We have helped countless companies (re)build and organise their networks so the flow of the company digital life is fast, uninterrupted and secure.

Hardware Sales

Stop hardware getting in way of efficiency. Choosing the right hardware ecosystem for your company can have huge impact on both productivity and stability.

Office hardware that works flawlessly, has multiple backups great conferencing tools and robust network and all that on the latest operating system, and all of this will benefit to your employees comfort and lets them focus on the important stuff.

Through working with great companies from IT sector we have gained a lot of experience in what hardware works the best for each company. We have access to great hardware resources and can offer you quality equipment for your business, from efficient networking and high performance computers to all sorts of accessories.

We can install, implement and maintain the hardware as well.

[Need an advice ?](#)

App Development

Mobile, online and desktop apps and websites can improve your employees' efficiency, bond your customers with your brand and help you sell a product or service. Many companies offer their branded applications to open another important channel of communication with their clients.

Because of the nature of application development we advise our clients directly - if you have ideas or queries regarding this or any other topic feel free to contact us - we will be happy to assist you.

Our objective is to help you achieve your business goals so that your business and your customers benefit from the best the Internet has to offer.

ANY QUESTION ?

Brighter future for business

Future Business specialises in servicing the small and medium enterprise (SME) and corporate sectors with a complete range of technical services.

For more over 20 years we have been delivering telecommunications, internet marketing, web design, relational databases and search engine optimisation (SEO) solutions to companies all over Ireland.

OUR PROJECTS WITH YOU

Boutique works best

Ours is a boutique service because we believe in offering our clients one-to-one attention and the option to select the services they need at a fair price.

We have no interest in selling services that the customer does not need nor do we charge exorbitant rates for simple tasks. We believe in building a long-term business relationship that will be beneficial to both our clients and our business. Future Business consists of experts in fields of

- management and marketing
- brand building, design, UI, UX,
- coding, building efficient backbones of websites and e-commerce
- system operations, server administration
- telecom and connectivity

OUR FIELDS

Benefit from our extensive knowledge of web and many related fields.

Benefit from the experience we have gained through helping hundreds of businesses grow.

Benefit from a truly complete service - from marketing analysis through to a professionally designed and dynamic website that delivers results.

Benefit from our knowledge of the Irish market and our expertise in selling products to Irish consumers.

Alex Gogan, CEO Managing Director

Alex has been and is an adviser to a number of technology companies including NTL (formerly Cablelink) where he was instrumental in setting them up as one of Europe's first Broadband Internet companies; Philips Broadband Networks; Com 21 (one of world's largest cable and DSL modem manufacturers); First Tuesday; Department of Public Enterprise of Ireland; Internet Advisory Board and several venture capital companies. Alex's advice was instrumental in one company netting a profit of over €65 million in one sale.

Alex regularly delivers talks on internet related topics to a wide range of audiences including:

- Access 2000 Conference in Barcelona; a broadband technology conference relating to content and maximizing profit.
- Keynote speaker in Brussels on IP Security and in Istanbul on "Developing Internet Services your Customers Want" for COM21.
- RoadShow speaker for Phillips conferences in London and Paris on "How Your Customers Will Use the Internet Now and in the Future."

[Email Alex](#)

Wojtek Lewandowski, Chief User Experience/UI Design

With over 15 years' of professional and academic experience in Branding, Web Design and Web Development, Wojtek brings valuable experience in creating websites that work well for clients. With a MA in computer science from Cracow University of Technology, Wojtek specialised in computer graphics and multimedia. This technical education enables him to look at designed websites from both an artistic and a practical perspective. Wojtek's studies covered usability, UX, interface design (UI) and web technologies. He is also passionate about optimizing user experience when they use the Web both on mobile and desktop. He believes it should always be fast and beautiful and convey brand effectively. Wojtek believes in quality of both design and code and often adds valuable ideas that benefit user experience on our client's websites. His focus is to make client branding consistent on designed websites and materials to strengthen brand identity.

[Email Wojtek](#)

Andrei Petrov, Systems Administration Manager

10 years of experience in administration of the Linux and FreeBSD operating systems.

- Debian, Ubuntu, Centos, FreeBSD
- Apache, Nginx
- MySQL, Mariadb, Percona, PostgreSQL, MongoDB
- Qemu, KVM, libvirt, Vmware esxi, Xen Server, Docker, Virtualizor, Proxmox VE
- Network services - Powerdns, Postfix, Dovecot, dkim, Proxmox Mail Gateway, Vsftpd, Openvpn, Squid, Imapsync
- Backups - rsnapshot, duplicity, mylvmbackup, xtrabackup
- Nagios, Munin, Monit, Cacti, Smokeping, mrtg, Kibana (ELK)
- Clamav, rkhunter, Snort, Tripwire
- csf, iptables, ufw, ipfw, pf
- cPanel/WHM, WHMCS
- Owncloud, Nextcloud
- 3cx, freepbx
- Jira, Bitbucket, Confluence, Onlyoffice

Responsible for administering and engineering of a middle (approximately 3000 users) Campus Area Network. FreeBSD 6-8, Linux OpenSuse 11.xx, Bind, NAS, Mikrotik, firewalling, routing, web hosting, system monitoring.

[Email Andrei](#)

Suzie Gogan, Production Manager

Managing administrative and operational elements of projects to assure successful completion and customer satisfaction while meeting company financial goals for each project.

Responsible for the planning and day-to-day management of the projects.

Working on a wide variety of high-profile internet projects, estimating the timescales, planning and organising production schedules, assessing project and resource requirements, communicating closely with clients.

[Email Suzie](#)

Juan Huetle, Web Developer IT Business Analyst

Juan's knowledge and experience help building advanced frameworks and make websites and e-commerce projects work. He is a Master degree student at TU Dublin. He is always eager to make client's happy by providing his great technical skills.

PAGE “WHAT WE DID”

The different sections will be on 1 “slide” (page) :

There is a classic menu of the 3 sections **OR** a menu like a slide.

2 possibilities of disposition :

1/ the projects are hidden. We have to click on a section to make appear all the projects of this section below : latest projects / other recent projects / or archived projects.

2/ all the projects are already visible. If we click on section on the menu, the other project sections will be hidden and only the specific section will be visible.

The 3 sections have the same design :

<https://masonry.desandro.com/>

<https://jenseign.com/apprendre-html-css/documentation-theorie/masonry/>

<https://salvattore.js.org/>

see files “test.html / test.css” in FutureBusiness folder for the organisation of the code.

A short description for each images is below the specific image + the website link (!\ links, some websites are not online anymore or have a different design).

If we click on the image, it will enlarge the picture.

Maybe code an horizontal scrolling ? i.e. : visitors can do the horizontal scrolling with left-right arrows in the appeared section. An horizontal scrolling will do appear the last or next section (“Other recent projects” or “archived projects”).

ONE OF IRELANDS LEADING AWARD-WINNING BRIDAL DESIGNERS

WELCOME TO DE STAFFORD BRIDAL. Kathy de Stafford is one of Irelands leading bridal designers. Kathy, who is an award winning designer, has been established for many years and is based at her Atelier Boutique, 27 Wicklow Street, Dublin 2.

The success of Kathy's business, led to her opening another bridal boutique in Navagh, Co. Tipperary in 1999, where Kathy also visits regularly to meet with brides.

Both salons have a relaxed contemporary environment, perfect for choosing your dream gown. In October 2008 Kathy opened another salon 'de Stafford Couture' in Howth, Co. Dublin which carries stunning creations by the world's most famous designers including 'Inal Drori', Nork Hen and Corry Malouf.

Woof Doggie Day Care is a fully registered and insured home comforts dog crèche located in Dublin 16 that provides your dog with what is literally a home away from home. We are a family run business that caters for a small number of dogs in our home and in our secure, purpose-built play area. The dogs in our care have access to our home and this creates a very comfortable 'homey' environment for your dog. At Woof Doggie Day Care, your dog will be active throughout the day with fully supervised playing, learning and socialising in a safe environment.

Dogs by nature are social animals and love to romp and chase, however, we do recognise that all dogs are different and some need various levels of fun! We do have a quiet area where our less active friends can have some quiet time.

At Woof, we also provide dog walking to the park and further afield in the Dublin mountains. This, as you can imagine, is a huge hit with the dogs! Your dog can be walked alone or alongside a small group. This is a fantastic way to keep your dog in shape and burn off some of that extra energy.

At Woof Doggie Day Care, we recognise that our lives are getting busier and so is the Dublin traffic! To that end, we open early at 7am, which gives you plenty of time to get to work after dropping your dog in and have a coffee before you start!
